SUMMARY

Game developer with 5+ years of experience in Unity and Unreal Engine across mobile and multiplayer PC games. Currently developing hybrid-casual puzzle games at Virtual Projects; previously a Mobile Game Engineer at Zynga on Spades Plus and Gin Rummy Plus, and a Senior/Lead gameplay developer on multiplayer Unreal Engine titles. Strong in gameplay systems, the Gameplay Ability System (GAS), performance optimization and team tooling. Uses Claude Code for AI-assisted development and rapid prototyping in Unity, verifying every change in Play Mode.

EXPERIENCE

Game Developer | Virtual Projects | Aug 2026 - Present

- Developing hybrid-casual puzzle games for mobile: 1 game in soft launch, 1 game in development.

Mobile Game Engineer | Zynga Turkey | Apr 2025 - Jan 2026

- Developed client-side features for Spades Plus and Gin Rummy Plus, live mobile card games.
- Refactored the user profile, improved the in-game shop and built various pop-up systems.

Senior Unreal Engine Developer | Frostline Games | May 2024 - Mar 2025
Heroes of the Dark Ages, multiplayer TPS MOBA

- Optimized the Gameplay Ability System (GAS) for character abilities in a multiplayer TPS MOBA.
- Built tools and parent classes that streamlined team workflows, cutting the time for the same task by ~20%.
- Worked in CI/CD workflows.
- Tech: C++, Unreal Engine 5, Reflection system, 3Cs, Unreal Insights, JIRA, Slack, Git.

Lead Gameplay Developer | Funverse Games | Mar 2022 - May 2024
Hit and Boom, multiplayer game on Steam

- Optimized gameplay systems for seamless performance in both client-side and server-side environments.
- Tech: C++, Unreal Engine 4, GAS, CI/CD, Reflection system, 3Cs, Plastic SCM, Slack.

Game Developer | Funmoth Games | Mar 2021 - Mar 2022
Hit and Boom

SKILLS

Engines: Unity, Unreal Engine 4, Unreal Engine 5

Languages: C#, C++

Gameplay: Gameplay Ability System (GAS), 3Cs, multiplayer client-server gameplay, Unreal Reflection system, performance optimization

Tools: Unreal Insights, Git, Plastic SCM, CI/CD, JIRA, Slack

AI-assisted development: Claude Code with a custom harness (CLAUDE.md, skills, subagents, hooks, memory), Unity CLI, Blender MCP

PROJECTS

- Gin Rummy Plus (Zynga, mobile) | Spades Plus (Zynga, mobile)
- Hit and Boom (Steam) | Heroes of the Dark Ages (Frostline Games)

EDUCATION

Bachelor of Engineering, Computer Engineering, Bahcesehir University
Minor: Game Development

CERTIFICATIONS

Multiplayer Gameplay Ability Systems (Udemy)

LANGUAGES

English: Professional Proficiency (B2 – Upper Intermediate) | Turkish: Native

INTERESTS

Played American football for 5 years; currently coaching my university's flag football team.
